STREET PARADE AND SPORTS AMUSE NEAR-BY RESIDENTS WHILE CANOE TRIP DRAWS MANY OUTSIDERS.

The cance carnival, the second one to be held in Grayling, was a grand success and enjoyed by hundreds of visitors from distant olties besides thousands from home and near by places.

The street parade that started the festivities and the sports and ball games that followed afforded a lot of excitement and pleasure right up to late Saturday night, when those were to participate in the down-the-AuSable cance trip hurried home or to hotels to catch a few hours sleep before emberkation.

On Friday and Saturday afterhoons there was plenty of fun ed two floats, featuring Chevrolet for both young and old while each took part in the foot races, bicycle races, potato races, greas carrying heavy loads. Emergency Conservation Work To Go On Exhibit At Washington

Early in September there to be an exhibit in Washington, D. C., to show the work that the OOC camps throughout the nation are to and including August 25th for the transporting of pupils to and from school. Right reserved to redoing. Each camp has been requested to send to State Head-quarters a number of pictures, maps, sketches and paintings that will show the story of progre the camp has been making in its School Dist. Insect Survey

According to Dr. Needham of Cornell University, 95% of the food of fish under seventeen inches in length is made up of to know the type and quantity of insects in the vicinity of our trout streams. Professor Walt Morofsky of Michigan State College arrived at Camp AuSable Sunday and is to make a survey to letermine the effect of the stream improvement project on the insect life along the streams.

Insects are usually thought of as undesirable pests, but they are quite necessary to the fish that attract many northern Michigan.

Ground Water Survey

More and more is constantly be ing done to help in this business of fighting forest fires. The best thing, of course, is prevention, but preparation must be made for the day when a fire does break out. Crew foreman Mr. Grant AuSable State Forest to de-termine the water table. He then makes a map of the forest showing just how far down the water level is. C. LEE CRANDALL Township Clerk. FACTS ON RABIES GIVEN BY LOCAL PHARMACIST

Hydrophobia is not weather disease and there need be no more fear of rabies during

the summer "dog days" than at any other time of the year. This was a statement this week of Mr. C. J. McNamara, registered pharmacist of Mac & Gidley and member of the American Druggists Syndicate Fellowship.

"Entirely too many super-stitious ideas still persist on the subject of rables," said Mr. McNamara, "Superstition holds, for example, that dogs are much more likely to go mad during the sum-mer than at any other time of the year. The fact is that rables is no more common in August ly rare at any time. It is heard of more in summer becase of the greater outdoor freedom of both people and animals. Furthermore rables is not transmitted by dog bites alone. Cases of rabies are known to have been caused by a gentle house-cat. Also, contrary Savings Bank August, 6th. Yes to general belief. An excess of saliva from a dog's mouth does not necessarily indicate rabios. Most animals, like man, sweat through the skin, but dogs sweat mostly through the tongue and uncomfortable perfectly

the mouth.
"It should be borne in mind that a really mad dog flies forward vote called. All present woting less provoked or annoved, so that a person keeping out of his path by Nellist that the election board for the Special Election Weekler a tooth-wound by any type of infurfated or sick animal, the logical procedure is to immediate. personally to the clark of the ly put the case in the hands of a competent physician."

In case of a bite by a supposedly mad dog, the animal should not offered by Roberts and supposted caught with safety, according to Mr. McNamara who based his statement on facts compiled for rectal or official primary election him by the A. D. S. Fellowship.

Donald M. Rochester, field represintative of the Conservation Department has been assigned to work through the entire northern part of the lower peninsula, including about 20 counties. Working from the Gaylord regional office of the Department he will contact first all school teachers making known to them the kind of material available, stressing the importance of instruction in conservation and assisting them in ways and means of presenting the material to the students. He then plans to visit the schools, county by county, lecturing on conservation with motion pictures and showing portable exhibits to increase interest in the subject. The program is expected to consume all of the winter months.

Superintendents of schools and county school commissioners who are interested in having Mr. Rochester visit their schools should write to him at the Gay lord office to be included in the schedule he is now preparing.

has been estab-lished in the Bine President House. The executive offices are be-

ing remodeled and enlarged. One of the drat matters to claim the President's attention is the modification of NRA. The secret cabinet commilitee he appointed to inquire into the legality and advisability of con-tinuing and extending the price fixing features of NRA has decided this price fixing should be restricted and gradually abandoned, and there is little doubt that this advice will be followed. Whether or not the fixing of prices is legal, it has brought sharp and continuous eriticism from Senator Borah and many others which has not been relished by the New Dealers.

On his way from the west coast the President not only saw some of the great public works projects of the Northwest, but also passes through regions that have suffered is backing up the government agencles in their work of hurrying vast sums of government money to the arid regions to ease the human auffering and also to lessen the chances of another such catastrophe. The Public Works administration, which had an original appropriation of \$5,300,000,000, revealed it had spent about \$400,000,000 on to ald la ern families.
